teachers must utilize multiple years to complete their requirements especially Professional Learning Hours, this space houses the plan, and execution of the plan, for the make-up of missed hours. This reduces by providing a space to record, for example, the second August PLS attend, since "August PLS" only has one slot under the "PLS" section above.

Since some teachers must utilize multiple years to complete their requirements in TE, especially Professional Learning Hours, this space houses the plan, and records the execution of the plan, for the make-up of missed hours. This reduces confusion by providing a space to record, for example, the second August PLS that you attend, since “August PLS” only has one slot under the “PLS” section above.
